

## Změna hesla DSRM admin účtu (Directory Services Restore Mode)

---

Heslo DSRM účtu je možné resetovat použitím utility NTDSUTIL.

### Reset hesla na serveru kde je admin přihlášen:

```
C:\>ntdsutil ntdsutil: set dsrm password Reset DSRM Administrator Password: reset password on server null Please type password for DS Restore Mode Administrator Account: heslo Please confirm new password: heslo Password has been set successfully. </konsole> Reset hesla na vzdáleném serveru: <konsole> C:\>ntdsutil ntdsutil: set dsrm password Reset DSRM Administrator Password: reset password on server SERVERNAME Please type password for DS Restore Mode Administrator Account: heslo Please confirm new password: heslo Password has been set successfully.
```
